

NO	COMPANY	YEAR	TYPE OF STRUCTURE	LOCATION	JOB TYPE	JOB-DETAILS
1	ERENER Const. Co.	1998	Headquater Building	İzmir	Deep Excavation Design	The project of a secant bored pile wall with anchors. The depth of excavation was around 7.5 m
2	CBO Construction Co.	1998	Headquater Building	Ankara Yıldız	Deep Excavation Design	Design of an anchored mini pile wall for the 7.5 m deep excavations of the Headquater Building
3	MESA Mass Housing Investment İnc.	1998	Trade Center	İstanbul Altunizade	Deep Excavation Design	Design of an anchored curtain wall for the 12.5-14 m deep excavations of a Trade Center Complex
4	AYDIN KÖKSAL	1998	Office Building	Ankara Balgat	Deep Excavation Design	Rehabilitation of the deep excavation of an office building. The depth of the excavation was about 10 m deep
5	AKER Const. Co.	1999	Headquater Building	Ankara Dışkapı	Deep Excavation Consulting	Consulting for the anchored contiguos bored pile wall constructed for an excavation approx. 10-12 m deep
6	YAPISAN Construction Co.	1999	Pump Station	Küçükköy	Deep Excavation Design	Design of an excavation with bored piles and anchors
7	SÜRÜCÜLER Const. Co.	1999	Trade Center	Ankara Kızılay	Deep Excavation	Design of an anchored mini pile wall for the approx. 10 m deep excavations of a Trade Center Complex
8	MESA Mass Housing Investment İnc.	1999	High Rise Building	Ankara GOP	Deep Excavation	A hybrid anchored and nailed wall was designed for an appoximately 14.5 m deep excavation
9	OYAK Const. Co.	1999	Hospital Building	Ankara Balgat	Deep Excavation	An anchored contiguous bored pile was designed for the excavation of the rehabilitation building of Ankara Traffic Hospital. In the corner section a soil nailed structure was
10	ALTERNATİF Soil Mech. Const. Co.	1999	Housing	İstanbul Beşiktaş	Deep Excavation	An anchored mini pile wall was designed for an excavation of appoximately 20 m
11	ÇETİN BİNGÖL	1999	Dormitory Building	Ankara Cebeci	Deep Excavation	The design of an anchored curtain wall for the appoximately 20 m excavations of a dormitory in tuff
12	PEKER Construction Co.	1999	Regulator Structure	Samsun Çarşamba	Deep Excavation	A secant pile wall with anchors were designed for the excavations of Kumköy Regulator
13	MESA Mass Housing Investment İnc.	2000	Shopping Center	Ankara Kavaklıdere	Deep Excavation Design	The design of a 14 m secant pile wall for the excavation of a shopping center/office building located in Kavaklıdere Ankara

NO	COMPANY	YEAR	TYPE OF STRUCTURE	LOCATION	JOB TYPE	JOB-DETAILS
14	ANTYAPI Const. Co.	2000	Lycee Building	İstanbul Çamlıca	Deep Excavation Design	The design of a nailed and contiguous piled anchored wall for the approx. 13 m deep excavation of BİL-FEN Lycee in Çamlıca
15	EMEK Const. Man. Co.	2000	Hotel Complex	Bursa	Deep Excavation Consulting	Consulting for the anchored contiguous bored pile wall constructed for an excavation in the vicinity of Çelik Palas Hotel
16	AKYAPI Const. Co.	2000	Viaduct	İzmit	Deep Excavation Design	The design of an anchored retaining structure for the protection of Taşvancıl Viaduct from a nearby excavation
17	ALKE Const. Trade Co.	2000	Pump Station	İzmir Alsancak	Deep Excavation Design	The design of a strutted sheet pile wall for the excavation of outlet structure of Gümrük Pumping Station
18	ATILLA Const. Trade Co.	2000	Sewerage System	Çiçekdağı	Deep Excavation Design	The design of sheet piled excavations of Çiçekdağ Sewerage Project
19	EMEK Const. Man. Co.	2001	Hotel Complex	Bursa	Deep Excavation Design	The design and consulting of a 14m deep anchored secant bored pile wall constructed near existing Çelik Palas Hotel Building
20	MESA Mass Housing Investment Inc.	2001	Housing Complex	Ankara	Deep Excavation Design	The design of a 8m deep anchored mini pile wall.
21	AKER Const. Co.	2001	Hotel Building	Ankara Kavaklıdere	Deep Excavation Consulting	The control of projects of the anchored pile wall and consulting during the construction
22	GEOTEM Geotechnical Engineering Co. Ltd.	2001	Housing Complex	İstanbul	Deep Excavation Design	The design of a 15m deep excavation with 30cm diameter mini piles and anchors.
23	GEZER Industry Construction Trade Co.	2002	Water Treatment	Ankara	Deep Excavation Design	The design of a secant pile retaining wall for a 7m deep excavation of the water intake structure
24	GEOTEM Geotechnical Engineering Co. Ltd.	2002	Factory	İstanbul	Deep Excavation Design	Design of an 15m high permanent soil nail wall in İkitelli İstanbul
25	ALKE-ATAÇ Joint Venture	2002	Tunnel Portal	İstanbul	Deep Excavation Design	Design of a soil nail wall for the Outlet Structure of Beykoz Tunnel constructed as a part of MELEN project.
26	GEOTEKNİK Const. Co.	2002	Headquarter Building	Ankara	Deep Excavation Design	The design of a 12m deep excavation with anchors and 30cm diameter minipiles for the construction of the headquarters of ONUR Engineering Co.

NO	COMPANY	YEAR	TYPE OF STRUCTURE	LOCATION	JOB TYPE	JOB-DETAILS
27	GEOTEKNİK Const. Co.	2002	Hospital Building	Ankara	Deep Excavation Design	The design of an anchored secant pile wall for the approximately 15 m deep excavations of the BAŞKENT Hospital
28	Makina Kimya Endüstrisi Kurumu	2002	Factory	Kırıkkale	Deep Excavation Design	The design of 9m deep excavation with anchors and secant bored piles
29	GÜRÜN-ALKIM Construction Co.	2002	Housing	Ankara	Deep Excavation Design	The design and consulting of a 15m deep anchored mini pile wall .
30	YAPISAN Electricity Industry Trade Co.	2002	Pump Station	Balıkesir	Deep Excavation Design	The remediation of a 9m deep excavation with jet-grout columns for the pumping station in Sarmısaklı Beach
31	MENDOR ISRAEL	2002	Housing Projects	Israel	Deep Excavation Design and Consulting	Consulting to the Israeli Company MENDOR for the deep excavations and pile foundations in ISRAEL
32	ÇAKIR-STAR Joint Venture	2002	Slope Stabilization	Bartın	Deep Excavation Design	The remediation of unstable cut slopes in Bartın by soil nailing
33	LİMAK Construction and Trade Co.	2003	Hotel Building	Ankara	Deep Excavation Design	The design and consulting of a 30m deep contiguous bored pile wall constructed for the Hotel Building
34	TÜRKERLER Construction Tourism & Trade Co.	2003	Headquater Building	Ankara	Deep Excavation Design	The design and consulting of a 12m deep contiguous bored pile wall constructed for the EGO Headquarters
35	ONEL Construction Co.	2003	Shopping Mall	Karabük	Deep Excavation Design	The design of a 17m deep anchored contiguous bored pile wall constructed for a Shopping Mall
36	EMEK Const. Man. Co.	2003	Hotel Building	İstanbul	Deep Excavation Design	The design and consulting of a 30m deep anchored mini pile wall constructed for the MAÇKA Hotel in İstanbul
37	AKSA Project Consulting Co.	2003	Car Park	İstanbul	Deep Excavation Design	The design of a 15m deep anchored mini pile wall for the construction of an underground car park in Balmumcu İstanbul .
38	DEMARS Construction Co.	2003	Headquater Building	Van	Deep Excavation Design	The design of a soil nail wall for the Jandarma Headquarters in Van-Çaldıran
39	GEOTEKNİK Const. Co.	2004	Restaurant Building	Ankara	Deep Excavation Design	The design and consulting of a 21m deep anchored secant bored pile wall constructed for GÖKSU Restaurant

NO	COMPANY	YEAR	TYPE OF STRUCTURE	LOCATION	JOB TYPE	JOB-DETAILS
40	MAK-YOL Construction Co.	2005	Motorway	İstanbul	Deep Excavation Design	The design of soil nailed structure for the O1 Motorway Edirnekapi Section
41	MİMPAŞ Engineering Co.	2005	Pump Station	Bafra Samsun	Deep Excavation Design	The design of a sheet pile system for the 7m deep excavation of a pumping station
42	KONKAN Eng. Consulting Ltd. Co.	2005	Car Park	Ankara	Deep Excavation Design	The design of a 12m deep excavation with anchors and 80cm diameter secant piles for the construction of the T.C Prime Ministry Underground Car Park
43	T.C Amasya Municipality	2005	Car Park	Amasya	Deep Excavation Design	The design of deep excavations for the underground car park in Amasya with a depth of 16m
44	MESA Mass Housing Investment İnc.	2005	Housing Complex	Ankara	Deep Excavation Design	The design of a 14m deep excavation for the construction of highrise apartment buildings in Dikmen-Ankara
45	GEOTEM Geotechnical Engineering Co. Ltd.	2006	Hospital Building	Ankara	Deep Excavation Design	The design of a 32m deep excavation for the Construction of GÜVEN Hospital
46	CEMSA Const. Tourism and Trade Ltd. Co.	2006	Building	Ankara	Deep Excavation Design	The design of a 6m deep excavation for the Construction of Social Building of T.C Ministry of Internal Affairs
47	GAMA-NUROL Joint Venture	2006	Underground	İstanbul	Deep Excavation Design	The design of a 30m high composite retaining wall with soldier piles - struts and soil nails
48	Z.C Geotaş Soil Eng. Trade. Co.	2006	Housing	Ankara	Deep Excavation Design	The design of a 22m deep excavation for the Construction of highrise apartment buildings
49	GEOTEM Geotechnical Engineering Co. Ltd.	2006	University Building	Ankara	Deep Excavation Design	The design of a tangent bored pile wall for the 7m deep excavation of Gazi University Sports Center
50	GEOTEM Geotechnical Engineering Co. Ltd.	2006	Headquarter Building	Ankara	Deep Excavation Design	The design of an anchored mini-pile wall for the İÇTAŞ Headquarter building
51	ESER Cons. Eng. Co.	2006	Building	İstanbul	Deep Excavation Design	The design of a secant pile retaining wall for a 7m deep excavation of the PTT Kadıköy building
52	SU-YAPI Eng. Cons. Co.	2007	Underground	İstanbul	Deep Excavation Design	The design of deep excavations for the Sirkeci Station South Entrance in İstanbul-Marmaray Project.

NO	COMPANY	YEAR	TYPE OF STRUCTURE	LOCATION	JOB TYPE	JOB-DETAILS
53	REDEVCO Real Estate Investment Inc.	2007	Shopping Mall	Erzurum	Deep Excavation Design	The detailed design of the anchored contiguous bored pile wall of Erzurum Meydan Shopping Mall
54	REDEVCO Real Estate Investment Inc.	2007	Shopping Mall	Ankara	Deep Excavation Design	The detailed design of the anchored contiguous bored pile wall of Ankara Gordion Shopping Mall
55	SİNES Construction Ltd. Co.	2007	Culture Centre	Ankara	Deep Excavation Design	The detailed design of anchored secant pile wall for the deep excavations of Sincan Municipality Culture Center
56	GEOTEM Geotechnical Engineering Co. Ltd.	2007	Trade Center	Ankara	Deep Excavation Design	The design of anchored contiguous pile wall for the 21m deep excavations of a Trade Center
57	Governors Union	2007	Work Centre	Ankara	Deep Excavation Design	The detailed design of anchored contiguous pile wall for the deep excavations of Ankara Governor's House
58	GAMA-NUROL Joint Venture	2007	Underground	İstanbul	Deep Excavation Damage Assessment	The detailed investigation of vertical and horizontal movements due to the excavations of Üsküdar Station and damage assessment of nearby buildings and facilities.
59	İKSA Engineering Consulting and Construction Co.	2008	Hotel	Ankara	Deep Excavation Design	The detailed design of anchored contiguous pile wall for the deep excavations of Varan-Mövenpick Hotel
60	SU-YAPI Eng. Cons. Co.	2008	Underground	İstanbul	Deep Excavation Design	The detailed design of strutted secant pile wall for the deep excavations of staircase of Sirkeci Station North Entrance
61	TC. Bolu Municipality	2008	Car Park	Bolu	Deep Excavation Design	The detailed design of anchored secant pile wall for the deep excavations of underground carpark.
62	SUMMA Libya	2008	High Rise Building	Libya	Deep Excavation Design	The detailed design of anchored and cantilever secant pile wall for the deep excavations of Al-Tadamon Twin Towers
